

For your customer service

The new way of customer service with AI based,
lifelike & dialog-capable AVATARS

Your service avatar:

- » supports all service customers at the same time if required
- » in up to 60 languages
- » works around the clock, 365 days a year
- » has the appearance, facial expressions and voice of a human being
- » in constant quality & friendliness
- » can have a real dialog with your customers
- » is more human and intuitive than a text chatbot
- » significantly reduces your ongoing service costs
- » improves the customer experience
- » can be easily integrated into your website via a link
- » gives your company an innovative and future-oriented image

Take advantage of the latest technological possibilities, to serve your customers in a completely new innovative and intuitive way.

Costs you less than 1 full-time employee and speaks to all your service customers at the same time in their own language
